Mystery Object Over Wolverhampton?

MR. DAVID J. ROSE WRITES...

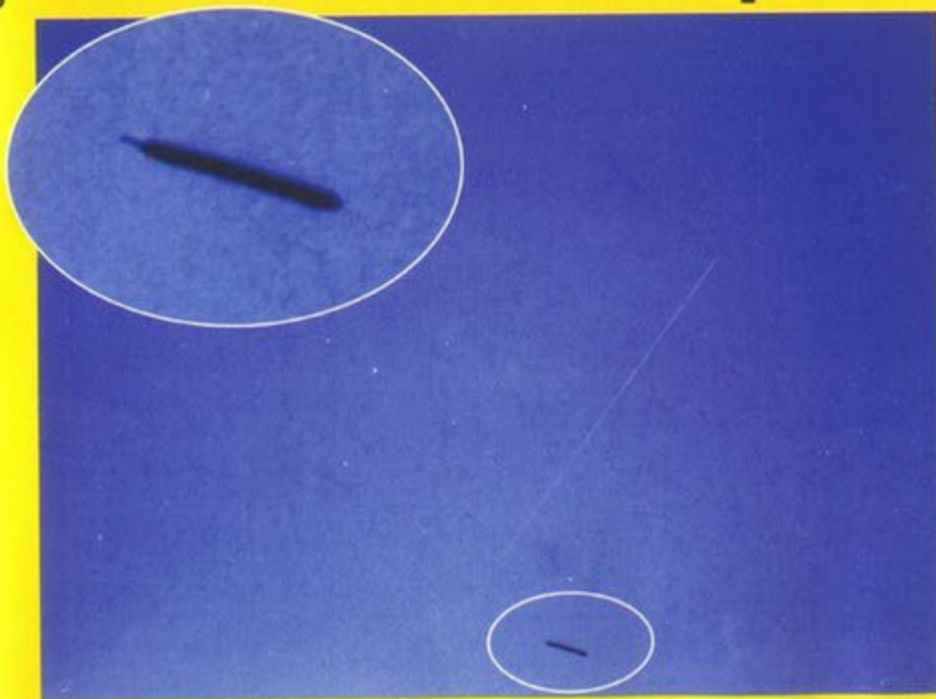

At about 11.00am on Sunday, 16 March 2003, I took a photograph of two birds from a disused railway near Wombourne, Wolverhampton. I vaguely remember seeing the vapour trail from a passing airliner, but I don't recall seeing the solid-looking cigar shaped object that turned up in the photo!

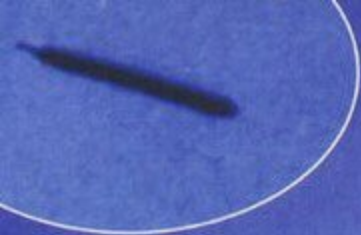

I have seen a dozen or so UFOs in my 39 years and find it ironic that the first time I get to photograph one, I don't actually see it!

I submitted the photo to UFO Research Midlands (UFORM) and a brief report appeared in our local newspaper, *The Express and Star*, though they didn't include the photo.

The negative is enclosed and I would be interested in your conclusions.

** Despite its odd-looking appearance and pointed front end, the absence of any reflective sunlight or shadow on the object is suggestive of a processing flaw - Editor*

YONHAPNEWS

A photograph showing a building with a corrugated metal roof and a white air conditioning unit on the roof. The sky is a pale, hazy blue, suggesting dusk or dawn. A small, dark, arrow-shaped object is visible in the upper right portion of the sky. The overall scene is dimly lit.

UFO LAB-DNA LIVE
Photo 1

A blurry, reddish-orange object, possibly a small celestial body or a light source, is centered in the upper half of the image. The object has a bright, yellowish-orange core surrounded by a darker, reddish-orange glow. The background is a dark, uniform blue.

10/19/2003

Un ovni?

Est-ce un oiseau? Un missile Scud? Superman? Un avion? Le nouvel engin spatial chinois? Une soucoupe volante? Allez savoir. Toujours est-il que notre photographe Serge Lapointe a découvert cette intrigante chose en revoyant les clichés qu'il a croqués au moment du départ, mardi, du paquebot Queen Elizabeth 2. La photo a été prise à 14 h 23, du Vieux-Port
